

# Our New Morning Routine

During the COVID-19 Pandemic

A special thank you to the Waickman Family for assisting and to Steve Leverick for filming.

Please stay in your car until it is your turn.

Mrs. Johnson waves in the Waickman Family to let them know it is their turn.

First, Ellie sits down so her shoes can be sprayed with sanitizer. Don't worry, it dries very quickly.

Next, Ellie and her mom rub hand sanitizer all over their hands.

They make sure to rub it in on both sides and in between their fingers.

# Time to check temperatures.

This is a very fast, touchless thermometer. It's finished before you can say "1, 2, 3!"

Time to sign in.

Ellie gives her mom a big hug while saying goodbye!  
Mom will be back to pick Ellie up after school.

Ms. Johnson takes Ellie to her classroom to see her teachers and friends.
